A rabbit could scarcely run There is no undergrowth, and you see clearly the consequence among the sisterhood, notwith directions accompany each box. standing its littleness. Another appears large vines and low green bushes. Many present the bare rocky surface to the sun, with but two or three bushy-topped trees to set off their effect. So you go for seventy miles or more, the eye constantly delighted with swift shifting scenes, | and the senses enraptured with pictures such as | the "rosy color of health" to the cheek of the most delimay not be transferred to canvass. At this sea. | cate. son the colors of the verdure assist to enhance the effect. Certainly, for scenery of its character-water, island, trees-there is nothing like "The Thousand Isles." In the memory of any

and happiness. I, this afternoon, passed down, or as the river W. I. HASKITT & CO., No. 14, West Washington men say, run the far famed Rapids of the St. Lawrence. This river, as everybody knows, is the outlet of the entire chain of Northern lakes. A most majestic stream it is. Right loyally and proudly it seems to bear the offering of the great Northwest to old ocean. Think of the vastness of its burden, collected from the Rocky Monntains almost to Hudson's Bay. As it rolls grandly on, it occasionally widens into lakes, as at Lake St Francis and Lake St Louis, through which I passed to day-placid and beautiful sheets of water, bordered by handsome farms and bright, smiling villages, rivaling Geneva in all the concomitants of lakelet scenery. When rocky hills attempt to confine it in and bind it down, it raves and plunges-it roars and thunders-right royally Most majestic and imperial is its kingly wrath-a very Lear among the rivers, frightens and appals you with its imperial passion. The Gallop Rapids are the first, and occur six miles below Ogdensburg. The last the La Chine, are within sight of the towers of Montreal. The excitement commences with the first and is nurtured and kept upat intervals by others, the Long Sault, the Coteau, Codar, Split Rock, Cascades, with occasionally pleasant pauses and intervals of calm take and smooth flowing river, until it STOCKS, BONDS, GOLD, SILVER, finally winds up, like a grand drama, with the climax and denonement, splendidly done, at the last, in the La Chine Rapids. Through such scenes and scenery you enter the quaint old city of Montreal. You are hardly free from the wild whirl of La Chine Rapids when you are landed at the stone docks of the city where history now seems to run back into the middle ages, and be Alse, Deal in Foreign and Domestic hind and over which stands, sentry-like, the gloomy mountain, upon which our patriot fathers looked in wonder and awe before the Declaration was thought possible. Steady and tried men are employed as pilots over the Rapids. The slight immediate crushing of the vessel, which seems acted. We are special agents for the sale of the est carelessness or mistake would result in the to bound along over the turbulent and angry hell of waters like a child's toy boat Before the Rapids are reached, steam is turned off, the boat floats for a second quietly and still, then, as if a giant had risen beneath her, she is seized. You feel the new motion-the swaying, undulating. Our office is en the corner of Washington street and rising, sinking which has succeeded the tremu- Virginia avenue, opposite Odd Fellows' Hall. lous thump, thump, produced by the engine. You know that in shutting off thesteam you have bound down one giant, but the new sensation convinces you that you are in the hands of another, just here as mighty and vastly more unreliable. Away your helpless craft goes, at one INSURANCE COMPANY, moment just grazing a ledge of rocks, at another plunging low down as though diving straight to is now permanently organized and ready to issue Fire the bottom, then up she comes again as though Policies. borne on one of the ocean's great swells, but al- Capital, - - - - \$200,000. ways on, right on, swift as an arrow, but turning, twisting, darting this way and that, as if | The Stockholders of this Company comprise some of frantically seeking in hurried fright escape from our most responsible citizens. the demons that toes her to and fro in fury, as if bent on her destruction. Passengers cling to S. A. FLETCHER, SR., the vessel, and occasionally a scream is heard, W. H. Talsorr, as a great wave washes over the deck. The

MEDICAL.

The Latest and Most Important Discovery

No man's name is more intimately connected with the history of MATERIA MEDICA of the United States, or more favorably known as a pioneer in Medical Discovery than that of

Kentucky.

become a household word throughout the

and South. His Worm Lozenges, in less than a year after their introduction, attained a reputation

As wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his discovery, or rather combination, for he does not claim to have been the discoverer of CEDRON. Central America, to whom its virtues have been known Thomson for relief.
for more than two hundred years. Armed with it, the Indian bids defiance to the most deadly malaria and handles without fear the most venomous serpents. It's a belief with them, that while there is breath in the body the Cedron is potent to cure, no matter what the iseas

While Dr. Bull is not prepared to endorse this extrava-gant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that as a remedy and preventative of all diseases arising from exposure, either to change of weather or climate, or to miasmatic influences, it stands

WITHOUT A RIVAL!

And justly deserves the reputation it has so long enjoyed n Central America and the West Indies.

IN DYSPEPSIA

A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensatory, pages 1387

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of CEDRON with other approved tonics

He might furnish a volume of certificates, but the public have long since learned to estimate such things by their true value. The safest plan is for every one to te for himself the virtues of a new medicine.

GIVE THE

CEDRON BITTERS

Thomson, in his practice for Scrofula, Rheumatic and general diseases of the blood, uses a Fumigating Vapor Bath of the most ingenious kind, in conjunc tion with internal treatment.

SEMINAL EMISSIONS, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, and noises like the rustling of leaves and rat tling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, night sweats, fetid breath, coughs, consumption, monomania, and frequent ly insanity.

The afflicted, on the first appearance of any of the

above symptoms, should immediately apply to Dr. Wm. Office and Consultation Rooms No. 29 South Delware street, Indianapolis, Ind. P. O. Box 1650.

HOOD How Destroyed, How Restored.

Dr. N. S. PENDERY,

Physician and Surgeon, No. 24 1-2 E. Washington St.

N CONNECTION WITH THE GENERAL PRACTICE of Medicine, I treat by a new and reliable medium, and with the happiest results, all forms of diseases of the Nervous, Seminal and Urinary and Sexual systems. Young men with hollow cheeks and pallid countenance, telling in fearful language the silent working of some form dable disease undermining your constitution, memory and reason, hurrying you to a premature death, reflect while reason holds sway and avail yourself of a treatment that dissipates the slightest disease, and Has NO CONNECTION WITH ANY OTHER ESTABLISE cures the harrassing weakness and other causes of serious difficulty and perpetual annoyance.

Spermatorrhoza, Seminal Weakness, Nocturnal Emis sions, Sexual Debility, impotency, Effects of Self-Abuse, and their results—Inability to Consummate the Marriage Contract, Mental and Physical Prostration, Epilepsy,

Insanity and Consumption. Like a staunch murderer, steady to his purpose, Presses him close through every tane of life, Nor misses once the track, but presses on, Till forced at last to the tremendous verge,

And at once he sinks.' Likewise, I will guarantee a radical cure of Syphilis, Gonorrhosa and Gleet, in all their stages, entirely removing from the blood the last spark of these terrible diseases that so gradually burn up the fountain of life. Diseases and Conditions Peculiar to Females.

The beauty and extreme delicacy of the female organ-ization, to say nothing of its physiological characteristics, are sufficient indications that it is subject to forms of disease and modifications peculiar to itself. The physician of the present day does not encounter any more forms of uterine diseases than did the physician of fifty years ago; but owing to the present social condition of woman, her diseases are increased to frequency, and to the truth of this assertion the melancholy deaths by consumption bear ample witness.

At the American Dispensary we treat by a new method, and with the happiest results, Prolapsus Uteri, (falling of the womb,) Eruptions of the Skin, Chlorosis, or Green Sickness—characterized by yellowish, dirty green pallor of the surface; Emansio Messium, or absent Menstruation; Amenorrhea, or Re tention of the Menses; Dysmenorrhea, a painful and difficuit flow of the Menses; Menorrhagia, or profuse Menstruction; Leuchorrhea, or excessive and altered secretion of the mucus—generally white, or nearly coloress 1865. and transparent.

Reader, I have given you a class of diseases that are met with in Females of all ages, whether married or un-married; and to married Females would say that there are many other forms of diseases peculiar to your sex diseases of Pregnancy, Parturition, and Lactation, of which space will not admit an elucidation. I omit it for the council chamber, adding but one more disease to this list, and that is a formidable one—Ulcerriton of the body of the Uterus.

If you are afflicted with organic weakness, or any assemblage of morbid phenomena of this character, you have no time to spare, but at once apply for m-d cal aid. If too late to arrest the disease, it is at least possi-

ble to palliate the symptoms, and thus smoothe the pathway to an untimely grave.

In a majority of instances these diseases have made considerable progress before the patient becomes alarmed. In some cases an emaciation is the first indication that attracts the attention of the patient's friends. And here, reader, let me call your earnest attention to the fearful significance of the word "wasting." It not only constitutes the leading feature, but the earliest and mest ominous symptor s of Consumption, examples of which are invariably met with in young ladles who are gifted with high intellectual endowments, refined ac-

itancy-not regarding these indications as being those of incipient disease, but those of personal charms. True, alast the poet sings-"Consumptions' cheek ne'er looks mere pure, And lovely, than when past all cure, And yet that bloom, so fresh so still, Has lent its fleeting aid to kill, And speaks, to those who watch its hue, Of sickness, death and suffering too;

Though who, just viewing anght so fair, Could dream that death was there?" ddress P. O. Box 1264. Croffice hours from 8 A. M. to 4 P. M. Room No. screen the person taking it against disease under the 24%, East Washington Street, Indianapolis, Indiana.

CALL FOR A CIRCULAR DESCRIBING ALL

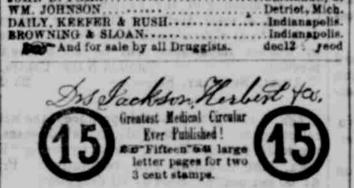

SYMPTOMS: The symptoms of Catarrh, as they generally appear are at first very slight. Persons find they have a cold that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharge, thin and acrid, afterwards becoming thick and adhesive. As the disease becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are bawked or coughed off. The secretions are of-fensive, causing a bad breath; the voice is thick and nasal; the eyes are weak; the sense of the smell is lessened or destroyed; deafness frequently takes place. Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a thoroughly established, that no more need be thick or slimy mucus, which has fallen down from the head during the night. When this takes place the per-son may be sure that his disease is on its way to the ungs, and should lose no time in arresting it. The above are but few of the many Catarrh symptoms

A Single Bottle will last a Month-te be used three times a day. TESTIMONIAL

From Hon. Thomas J. Turner, Ex-Member of Congress rom Illinies, late Speaker of the Illinois House of Rep-resentatives, and Grand Master of A. F., and A. M., of FREEPORT, October 21, 1863. Da. D. H. SEELYE-Dear Sir: In reply to your notice of the 18th inst., I would say that I was severely afflicted with Catarrh for years, when I became acquainted with you and bought two bottles of your liquid Catarrh Remedy. Before I had used one bottle I was sensibly improved, and before the second bottle was finished, was completely cured. I can recommend the medicine to all afflicted with Catarrh. Respectfully yours,

THOMAS J. TURNER.

LIVERY STABLE. TERNEY ALLEN, New York Livery and Sale St. ler Nos. 13 and 14 East Parl street, in the rear of PETROLEUM.

Blanke

Organized under the laws of Pennsylvania, No

CAPITAL STOCK, \$1,000,000.

Par Value of Shares \$5 Each.

A LIMITED AMOUNT OF STOCK FOR BALE AT THE LOWEST CASH SUBSCRIPTION PRICE OF \$3 PER SHARE.

No Liability to Stockholders.

The lands of this Company, embracing over 17,500 acres in FEE SIMPLE and leasehold, are situated in the

VERY HEART OF THE OIL REGION!

The 123 acres which they own on the Alle ghany, two miles above President and only five miles from the new 250 barrel well on Pitthole Creek, and the lease of 132 acres of the celebrated "Wilkins Tract" alone, are ample basis for any Company, and are worth more than the entire Capital Stock of the Company. There are SEVEN WELLS now in successful operation, yielding largely, from which regular monthly dividends of two PER CENT. are being paid to all stockholders, and there is EVERY AS-SURANCE that this Company will soon be able to pay from SIX TO TEN PER CENT. [From the New York Evening Express.] "Our telegraphic dispatches received to-day from the Oil Regions, inform us of the striking of a 200 barrel flowing well on Cherry Run, NEAR THE FIRST NATIONAL PETROLEUM COMPANY'S PROPERTY. Cherry Run Stocks will be in demand to morrow."

From the New York World. "THE FIRST NATIONAL PETROLEUM COMPANY is a first-class organization, whose officers are of the highest standing, and we cheerfully recommend it to all parties desirous of purchasing repioneer in the Oil business, and well known as a most efficient manager."

[From the New York Tribune.] "THE PIRST NATIONAL is the name of the Pe troleum Company whose prospectus and map are before us. The names which we see among the Directors are ample recommendations for this Company, and a sufficient guarantee of its future management."
